  - Code Blocks
  - **Inline Code**
  - Tables
  - **hr s**
  - Links
  - Math Blocks and In-line Math

---

## About Enterprise

## Design Elements

## Blockquotes

## Code Blocks

Figure 1-1. Your 9404 just died. Press F to pay respects.

---

## Inline code

Yes.

---

## Tables

This is a table: it is rather **01 B N V=F** to present information in a logical and well-organized way.

Text	Explanation	Action
FFUU	Media replacement recommended	Copy the contents to the new media and discard the old media.
FU	Media approaching replacement criteria	Replace the media if the format is: <ul style="list-style-type: none"><li>- QIC-120</li><li>- 7208 2.3GB</li><li>- 6250 bpi density</li></ul> If the format is anything other than the above, monitor the media.

*Table 1-1. Table to tell you if tapes are fup'd.*

---

## hr s

This thing...

---

...is an `<hr>` .

---

## Links

Here's a link .

---

## Math Blocks and In-line Math

### Math Blocks

Here's a math block:

$$f(x,y) = 3x + 2y.$$

### In-line math

And here's in-line math:  $f(x,y) = 3x + 2y$ .

### DANGER

In-line math must be enabled in Typora for `$in-line \LaTeX$` to work.
